Mr. Kevin F. Reed  
Lynwood Homeowners Association  
% Dow, Lohnes & Albertson  
1225 Connecticut Avenue  
Washington, D.C. 20036

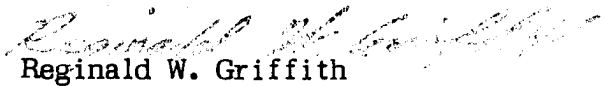

Dear Mr. Reed:

Thank you for your letter of May 13, 1983, concerning the Federal Capital Improvements Program funding proposal for the Central Intelligence Agency headquarters consolidation. We have advised the full Commission and CIA of your concern and recommendations regarding the adequacy of the traffic study relating to the off-site road improvements, the level of consideration given to other roadway access alternatives, and the provision of adequate opportunity to review and comment on plans for road improvements. At its meeting on June 2, 1983, the Commission requested CIA to reassess its traffic assumptions and findings with respect to alternatives previously considered for access to the site.

The CIA staff has reiterated to our staff in recent discussions that it remains fully committed to coordinating with affected organizations in the surrounding community on plans for the off-site road improvements, as well as the site and landscape plans for the consolidation project. Your association will also have an opportunity to comment and make recommendations to the Commission during its review of plans for the project. We have, in accordance with your request, included your association on the Commission's mailing list for future notices on this project.

We appreciate your comments and recommendations on this matter. If you have concerns regarding the coordination of the project plans during the coming months, please contact Robert Gresham of our staff, on 724-0191.

Sincerely,

  
Reginald W. Griffith  
Executive Director
